Hi, Alisha,

I hope all's well with you. Just writing to see if you would confirm the various points about EPA made in this AP story: http://www.washingtonpost.com/business/new-test-results-due-from-wyoming-gas-field-where-epa-linked-fracking-groundwater-pollution/2012/09/26/9c1eb324-07aa-11e2-9eea-333857f6a7bd_story.html

EPA came under a lot of criticism for the DEC 11 report. But you haven't renounced it right?

Did you keep the WY gov's office apprised?

Are you doing any additional testing?

Is the paper being peer reviewed now?

When do you expect it out?

Thanks and allbest

Neela
